

An evening with bestselling author Rob Parsons, OBE

the *wisdom* house

*Because you
don't always
have to learn
the hard way*

Welcome to *The Wisdom House*

"I remember a story my mother told me when I was a child. It was about a village in a land far away where every elderly person passed on a life lesson to future generations. Each lesson was written on a scroll and placed in a hut in the centre of the village. Once in a while the elders would gather everyone together and read the lessons aloud. The villagers called that hut *The Wisdom House*".

Rob was reminded of this story when his grandchildren were born and realised he'd love the chance to share his life lessons with them. He imagined sitting in front of the fire in his study and having one-to-one conversations with them when they are grown. Perhaps it would be when they'd begun their first job, got married, a friend had betrayed them or their dream had been crushed. At *The Wisdom House* Rob welcomes you into his study. Pull up a chair and get comfortable. Because – just maybe – you don't have to learn the hard way.

Bring your friends and neighbours to this popular event. You'll hear stories that will touch your heart and moments to laugh together - any minute of this evening could change your life forever.

On the night

Rob will unpack some of the life lessons he has learnt - a few he has learnt the hard way! Here is a flavour of what you can expect on the night:

- Taking off the mask and being true to yourself
- Dealing with difficult people
- Pursuing and fulfilling your dreams
- The single greatest killer of strong friendships
- Discovering and playing to your personal strengths.

About Rob Parsons

Rob has travelled the world meeting people from all walks of life and from cultures as diverse as those of New York and Borneo. He has spoken to governments, blue chip companies and over a million individuals. He has also written more than 20 books.

“Don’t be misled. These ‘simple lessons’ are profound and potentially life-changing.”

John Gallacher
Professor of Cognitive Health,
University of Oxford
